User guide to VetRepos test with QuizOne

Introduction

This document provides instructions on the technical requirements and the process of accessing the Test platform, making sure you are fully prepared to take the test successfully. Please check all the steps carefully and follow each step to avoid technical problems and ensure a smooth experience during the test.

Platform Access

Access the platform through the following link: https://vetrepos.quiz.one/
On the home page (image 1), enter the credentials [**email** and **password**] to log in.

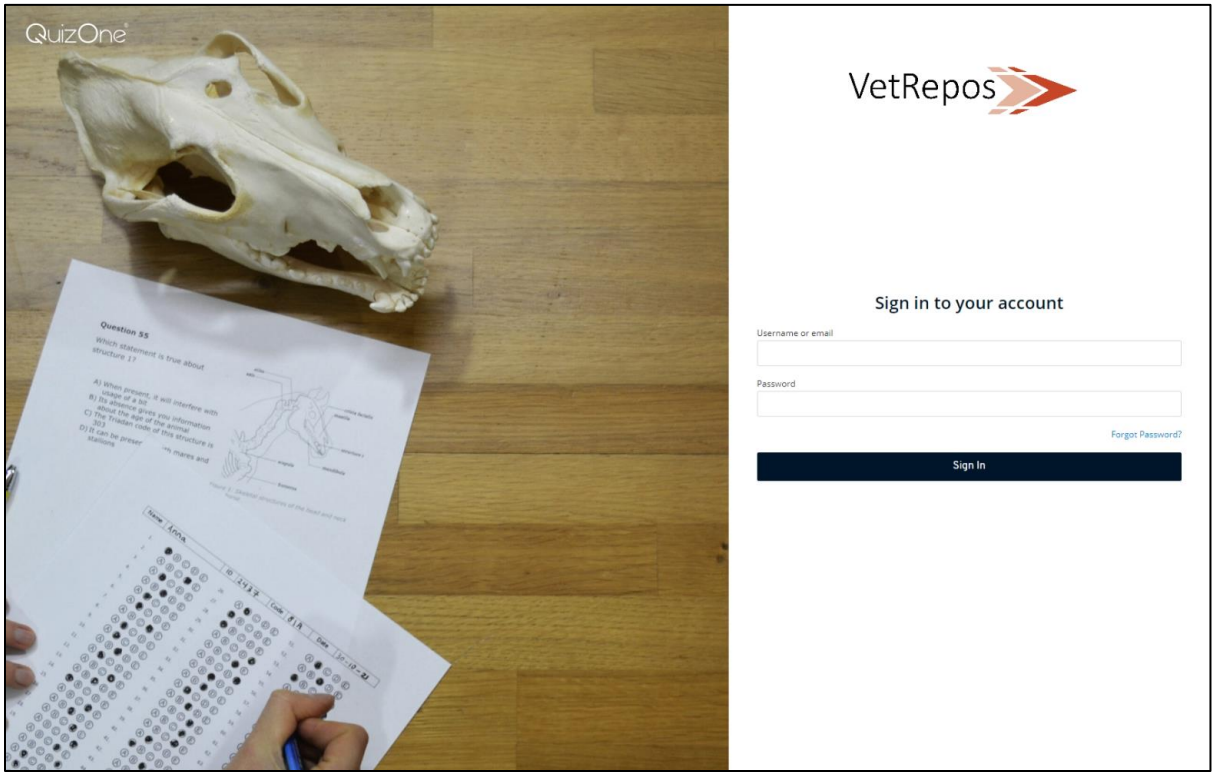

Image 1: Platform login page

If you cannot remember your password, click **Forgot your password?** and retrieve it via email (**Image 1**). Be sure to check your spam folder if the email does not appear in your inbox.

Note: When you log in for the first time, you will be asked to change your password.

Test Access

Once access to the test has been granted, go to your dashboard and under **My Tasks**, click on the **My Tests** tab.

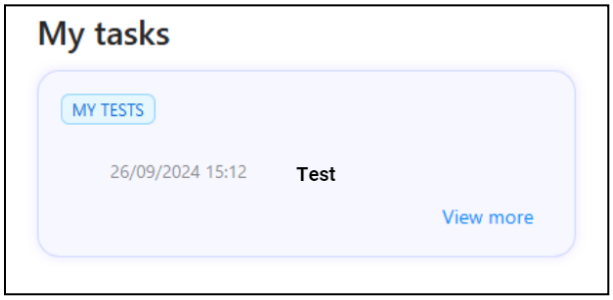

Image 2: My Tasks

You will be directed to your test bank. When the test becomes active, you can enter it (see **Image 3**). Click **Open Test** to proceed.

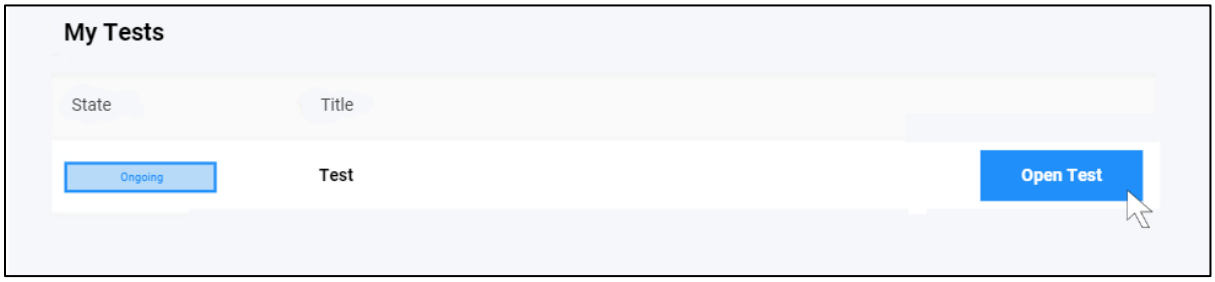

Image 3: Test Access

If no tests appear on the list, click the **Refresh** button at the top of the screen (see **Image 4**).

Image 4: Refresh test bank

Note: The test list refreshes automatically every minute, with the next update time displayed at the top of the screen as "Updating at X.".

How to Answer the Test

The test is set to last 45 minutes. Make sure you can sit undisturbed for the entire duration of the test. When you are ready click **Start Test** (image 5).

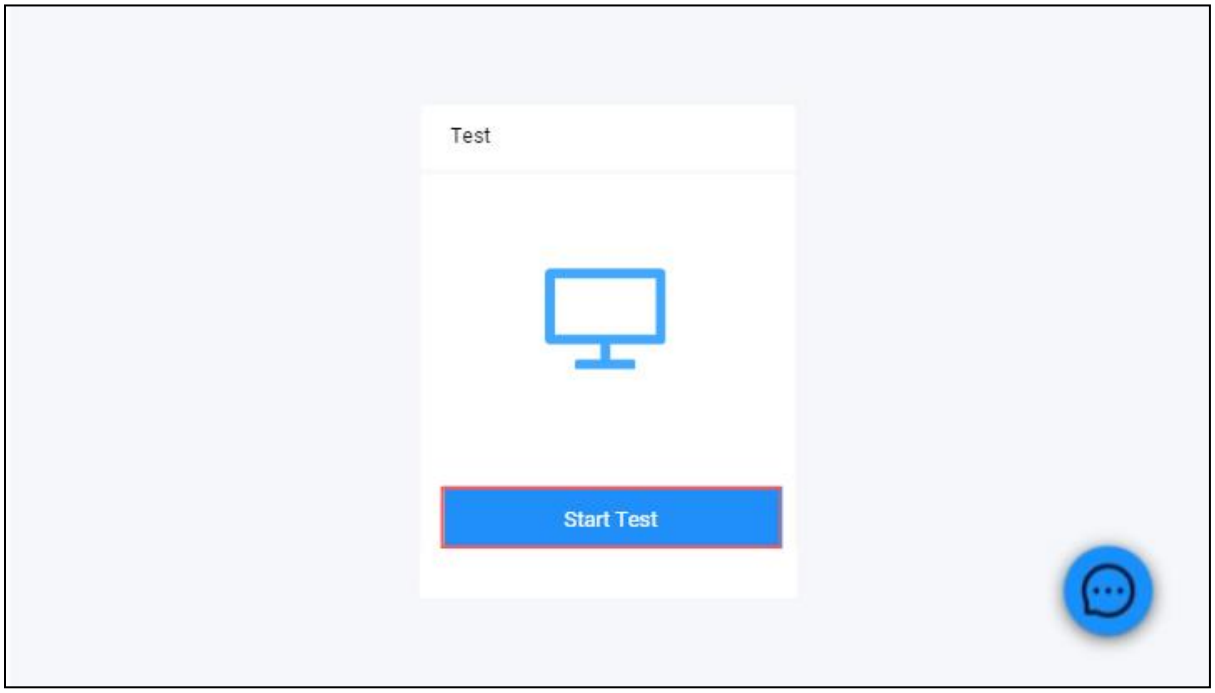

Image 5: Starting the Test

To ensure the test results are accurate, you are expected to respond quickly and focus on all the tasks presented to you. If you are unsure of the correct answer, make an educated guess. You can leave an answer blank, but this will be counted as an **incorrect answer**. Therefore, even if you are uncertain, guessing – especially by eliminating one or two incorrect options - can still demonstrate your competence.

How to Retrieve Your Results

Once you have completed the test, your results will need to be calculated. They are usually available on the **first weekday** after the test is completed.

To access your test results, login into the platform through the link: https://vetrepos.quiz.one/.

Go to the **History** folder in the top right-hand corner (**Image 6**). You will find a table listing your test. Click on the file icon to save your results as a PDF file on your computer, which will include a brief reading guide.
